## CHAIRMAN'S STATEMENT

# 16.1%

REVENUE

HK\$5,869,666,000

*On behalf of Comba Telecom Systems Holdings Limited (the “Company”), I present to the shareholders the annual report of the Company and its subsidiaries (“Comba Telecom” or the “Group”) for the year ended 31 December 2021 (the “Current Year”).*

The year 2021 was a year full of challenges for Comba Telecom. Amidst the evolving situation and spread of pandemic worldwide, and under the influence of factors such as intensified competition in the industry and surging bulk commodity prices, the Group continued to implement the 5G strategy despite the adversity. The Group’s revenue during the Current Year was HK\$5,869,666,000 representing an increase of 16.1% as compared with the year ended 31 December 2020 (the “Prior Year”). In particular, during the year, the Group won the bids for centralized procurement projects of related 5G antenna products of major domestic telecom operators in China, and maintained stable growth for its base station antenna and subsystem business. It has

## CHAIRMAN'S STATEMENT

also expanded the overseas business and strengthened its cooperation with internationally-renowned key equipment manufacturers in areas of 5G development. Remarkable results have been attained for its network products, thereby maintaining its position as the leading supplier. In addition, the Group recorded net inflow for cash flows from operating activities of approximately HK\$0.37 billion during the Current Year, representing a significant improvement over the net outflow for cash flows from operating activities in the Prior Year. During the Current Year, in order to enhance its competitiveness, the Group has increased its R&D expenditure in 5G technology and new products. Furthermore, the Group also made significant adjustments in the non-operation account during the Current Year. Owing to the prudent operation and financial principles consistently adopted by the Group and the impact of the pandemic, the recoverability of receivable of the Group was affected and their provision shot up. In addition, the rapid technological development in the telecommunications industry resulted in an increase in provision for outdated, obsolete and slow-moving inventories. As such, the Group recorded a loss attributable to owners of the parent company of HK\$592,567,000.

Leveraging the strong product strengths and sound communication with customers, the Company achieved satisfactory results for its businesses during the Current Year. In terms of network systems business, the Group continued to take the lead with competitive edges in 5G small cell technology. Industry-leading products such as super-light 5G RAN Solution and 5G Cloud Small Cell vRAN Solution under "OneChip" were launched successively; and the first-of-its-kind 2.6G, 700M intrinsically safe 5G base station was marketed and applied for commercial use in the specialized 5G network market for coal mines. The Group also

developed the industry's first 5G X-DAS digital distribution system that adopts an innovative system structure with combined use of optical fibers and feeder cables, as well as the innovative E-Femto Solution with coverage in elevators, both of which have significantly enhanced the competitiveness of the scenario-based indoor coverage products. The Group's overseas indoor coverage business witnessed promising improvements, while breakthrough has been achieved in the Open RAN business, including the commencement of cooperation with mainstream global operators and integrators at full steam. In terms of base station antenna business, the Group completed the development of new 700MHz and 2.1GHz antenna products required for 5G NR construction, and developed the industry-leading multi-antenna common-caliber wave transmission technology platform as well as the A+P antenna in strategic cooperation with the main equipment vendors in response to the 4G/5G integrated antenna requirements for overseas 5G network construction demands. On the business side, the Group continued to maintain its leading position in terms of market share among the domestic operators and regarding overseas business, with continuous consolidation of the cooperation with internationally-renowned key equipment suppliers, the Group has witnessed a significant growth of business in certain regions, such as Asia Pacific and Europe. In addition, the service business sustained a steady growth.

During the Current Year, the Group proactively carried out relevant R&D on the evolution, application and development of communication technology, and won numerous awards from authoritative organizations and industry associations. At the 22nd China Patent Award, the Group has won the Silver Award with its two patents and the Excellence Award with a patent. It also received the Golden Prize of the 8th Guangdong Patent Award with another patent, and the Silver Prize of the 8th Guangdong Patent Award with two patents.

## CHAIRMAN'S STATEMENT

During the year, the Group won the bids for several antenna products projects of major telecom operators in Mainland China. This not only showed the customers' full recognition of the Group, but also demonstrated the Group's technological capability, innovation ability, manufacturing ability and comprehensive strength in the antenna sector, thereby laying a solid foundation for maintaining its performance in respect of antenna and subsystem. The co-construction and sharing of network products overseas, the new indoor coverage business and the continuous expansion of the Open RAN market will certainly foster sustained and rapid business growth in the future. In addition to consolidating its operation results, the Group will continue to proactively engage in the development of new 5G technologies and the research on advanced technology and innovative products in the post-5G era so as to consistently provide products and services with high-cost efficiency for the 5G network upgrade of the global operators. It will also continue to implement effective operating policies in an effort to create value for the shareholders and customers as a whole.

# MANAGEMENT DISCUSSION AND ANALYSIS

## BUSINESS AND FINANCIAL REVIEW

Comba Telecom Systems Holdings Limited (the “Company” or “Comba Telecom”) and its subsidiaries (collectively referred to as the “Group”) recorded a loss attributable to owners of the parent company of HK\$592,567,000 for the year ended 31 December 2021 (the “Current Year”). Owing to the prudent operation and financial principles consistently adopted by the Group and the impact of the pandemic, the recoverability of receivables was affected and provision for receivables of the Group for the Current Year shot up. The rapid technological development in the telecommunications industry resulted in an increase in provision for outdated, obsolete and sluggish inventories. In addition, in order to enhance its competitiveness, the Group has also increased its R&D expenditure in 5G technology and new products during the Current Year.

## REVENUE

The Group reported revenue amounting to HK\$5,869,666,000 (2020: HK\$5,057,240,000) for the Current Year, representing an increase of 16.1% over

the year ended 31 December 2020 (the “Prior Year”). The increase in revenue was mainly attributable to the successful tender for centralized procurement of related antenna products of the three major domestic telecom operators and the expansion of overseas business during the Current Year, in particular, satisfactory results have been attained for products in respect of domestic antenna and subsystem business and the overseas networks.

### By Customers

During the Current Year, revenue generated from China Mobile Communications Corporation and its subsidiaries (collectively referred to as “China Mobile Group”) was HK\$1,520,754,000 (2020: HK\$1,059,345,000), representing an increase of 43.6% over the Prior Year, accounting for 25.9% of the Group’s revenue in the Current Year, compared with 20.9% in the Prior Year.

## MANAGEMENT DISCUSSION AND ANALYSIS

During the Current Year, revenue generated from China United Network Communications Group Company Limited and its subsidiaries (collectively referred to as “China Unicom Group”) increased by 8.7% over the Prior Year to HK\$493,095,000 (2020: HK\$453,786,000), accounting for 8.4% of the Group’s revenue in the Current Year, compared with 9.0% in the Prior Year.

During the Current Year, revenue generated from China Telecommunications Corporation and its subsidiaries (collectively referred to as “China Telecom Group”) increased by 15.9% over the Prior Year to HK\$577,141,000 (2020: HK\$498,019,000), accounting for 9.8% of the Group’s revenue in the Current Year, compared with 9.8% in the Prior Year.

During the Current Year, revenue from China Tower Corporation Limited (“China Tower”) decreased by 3.8% to HK\$426,244,000 (2020: HK\$443,230,000) as compared to the corresponding period last year, and represented 7.3% of the Group’s revenue in the Current Year, compared with 8.8% in the Prior Year.

During the Current Year, revenue from other domestic customers increased by 10.5% to HK\$643,514,000 (2020: HK\$582,582,000) and represented 11.0% (2020: 11.6%) of the Group’s revenue.

On the international front, revenue generated from international customers and core equipment manufacturers increased by 7.8% in aggregate to

HK\$1,997,497,000 (2020: HK\$1,853,178,000) for the Current Year, accounting for 34.0% (2020: 36.6%) of the Group’s revenue in the Current Year. The increase was mainly due to the expansion of the Group’s overseas business and the increase in sales of network products during the year.

During the Current Year, revenue from ETL Company Limited (“ETL”), a middle and small-sized operator in Laos and a non-wholly-owned subsidiary of the Group, grew by 26.5% to HK\$211,422,000 (2020: HK\$167,100,000), accounting for 3.6% (2020: 3.3%) of the Group’s revenue in the Current Year. The main reason for the increase was the improvement in the business since the completion and full commercialization of the nationwide 4.5G network in Laos by ETL.

### By Businesses

During the Current Year, revenue from the base station antennas and subsystems business increased by 34.0% over the Prior Year to HK\$2,416,328,000 (2020: HK\$1,802,940,000), accounting for 41.2% (2020: 35.7%) of the Group’s revenue in the Current Year. The increase in revenue was mainly attributable to the fact that the Group acquired the centralized procurement projects of related 5G antenna products of major domestic telecom operators and completed the phasal launch and delivery of the awarded projects as scheduled during the year.

During the Current Year, revenue generated from the network system business increased by 2.1% over the Prior Year to HK\$1,248,949,000 (2020: HK\$1,223,557,000), accounting for 21.3% (2020: 24.2%) of the Group’s revenue. The increase in revenue was mainly attributable to the continuous improvement in the overall operational efficiency of the Group’s network system business segment after its restructuring and optimization, the good progress on the international new indoor coverage business as well as the expansion of vertical industrial application of Open RAN products and base station products which recorded satisfactory results.

During the Current Year, revenue from services increased by 6.8% over the Prior Year to HK\$1,704,335,000 (2020: HK\$1,595,379,000), accounting for 29.0% (2020: 31.5%) of the Group’s revenue. The increase in revenue was mainly attributable to the fact that the Group optimized the servicing team and undertook higher quality construction projects.

## MANAGEMENT DISCUSSION AND ANALYSIS

### GROSS PROFIT

During the Current Year, the Group's gross profit decreased by 1.5% to HK\$1,422,831,000 (2020: HK\$1,445,181,000) as compared with the Prior Year. The gross profit margin was 24.2% in the Current Year (2020: 28.6%), down by 4.4 percentage points compared with the Prior Year. The decrease in the Group's gross profit margin during the Current Year was mainly attributable to the increase in provision for inventories and the prolonged impact of the COVID-19 pandemic on the global economy, which led to higher costs of operation, including the increase in costs as a result of the continuous rise in global bulk commodity prices, transportation fees and others and in turn a corresponding decrease in gross profit margin of some of its products. The Group will continue to launch new 5G products to maintain a stable gross profit margin and improve competitiveness.

### RESEARCH AND DEVELOPMENT ("R&D") EXPENSES

During the Current Year, R&D expenses increased significantly by 29.3% over the Prior Year to HK\$608,940,000 (2020: HK\$471,055,000), representing 10.4% (2020: 9.3%) of the Group's revenue, among which the deferred R&D expenses amortized was HK\$172,397,000 in the Current Year (2020: HK\$59,614,000). As 5G technology enters the stage of in-depth development, the prospects of new application scenarios and models are promising. In order to enhance the competitiveness of new 5G products, the Group increased its 5G-related R&D investments and promoted innovation continuously to capture business opportunities amidst the digitalization of the mobile telecommunications industry.

### SELLING AND DISTRIBUTION ("S&D") EXPENSES

During the Current Year, S&D expenses increased by 10.2% over the Prior Year to HK\$597,546,000 (2020: HK\$542,321,000), representing 10.2% (2020: 10.7%) of the Group's revenue. In view of the Group's commitment to strengthening its business expansion, the relevant S&D expenses increased. The management expects such expenses to be improved to an optimal level in the future.

### ADMINISTRATIVE EXPENSES

During the Current Year, administrative expenses increased by 5.2% over the Prior Year to HK\$601,073,000 (2020: HK\$571,519,000), representing 10.2% (2020: 11.3%) of the Group's revenue. The management expects that the strategy of optimizing the Group's organizational management structure on an ongoing basis will enhance the operational efficiency of the Company, and the expenses in this aspect will gradually improve to the most suitable level in the future.

### FINANCE COSTS

During the Current Year, finance costs significantly decreased by 36.9% to HK\$43,761,000 (2020: HK\$69,352,000) as compared with the Prior Year, representing 0.7% (2020: 1.4%) of the Group's revenue. The decrease in finance costs was mainly due to the fact that the Group optimized the loan portfolio and the decrease in the interests arising from the lower market interest rates during the Current Year.

The management has constantly exercised prudence in managing credit risk and the level of bank borrowings as well as improving cash flows. To cope with the business growth, the management will pay close attention to the latest trends in the financing market, changes in interest rates and financial policies on the market, and arrange the most appropriate financing for the Group, in order to improve the structure of its debts and thereby reduce its financing costs.

## MANAGEMENT DISCUSSION AND ANALYSIS

In addition, the management has leveraged the difference between interest rate and foreign exchange rate among different countries to minimize finance costs. As at 31 December 2021, the gearing ratio of the Group, defined as total interest-bearing bank borrowings divided by total assets, was 12.5% compared with the gearing ratio of 12.2% as at 31 December 2020.

### OTHER EXPENSES

During the Current Year, other expenses increased by 75.8% over the Prior Year to HK\$428,256,000 (2020: HK\$243,540,000), representing 7.3% (2020: 4.8%) of the Group's revenue. The increase in other expenses was mainly due to the increase in expenses in respect of receivables provision and others as a result of the impact of the pandemic on the recoverability of receivables and the goodwill of the Group's subsidiaries was impaired during the Current Year.

### OPERATING LOSS

In summary, due to the increase in provision for receivables, provision for inventories and R&D expenses during the Current Year, the operating loss of the Group for the Current Year was HK\$619,664,000 (2020: operating loss of HK\$199,813,000).

While the Group recorded a net loss for the Current Year, the Group's overall taxation charge amounted to HK\$16,100,000 (2020: HK\$23,011,000), which comprised an income tax expense of HK\$19,912,000 (2020: HK\$28,846,000) and a deferred tax credit of HK\$3,812,000 (2020: deferred tax credit of HK\$5,835,000), as a result of the taxable profit recorded by certain subsidiaries.

Details of reduced tax rates enjoyed by major operating subsidiaries are set out in note 9 to the consolidated financial statements.

### LOSS

During the Current Year, the loss attributable to owners of the parent of the Group (the "Loss") was HK\$592,567,000 (2020: Loss of HK\$194,104,000).

During the Current Year, the net loss from ETL (51% owned subsidiary of the Group) was HK\$192,905,000 while the net loss from ETL in the Prior Year was HK\$230,391,000.

### DIVIDEND

In view of the Group's operating results for the Current Year and its long-term future development and flexibility of its financial position, the board (the "Board") of directors (the "Director(s)") does not recommend the payment of 2021 final dividend (2020: no payment of final dividend).

### PROSPECTS

The past 2021 was a year full of challenges. The upheaval and spread of pandemic worldwide have disrupted the normal economic activities and people's daily lives in various countries and regions around the globe. Meanwhile, the pandemic made us realize that the development of digital communication network plays a critical role in the society. With 5G entering into a new stage, not only consumers will be benefitted from the new applications, enterprises and industries may as well gradually leverage the low-latency and high-reliability features of 5G networks to realise intellectual upgrade of industries, making 5G a more essential part in our daily lives.

Looking forward, while certain countries and regions advanced their in-depth 5G development towards more extensive coverage and multiple commercial uses, the Group will seize the opportunities arising from the development of indoor 5G networks by operators to promote the in-depth integration with vertical industries to the next level.

## MANAGEMENT DISCUSSION AND ANALYSIS

### PRODUCTS AND SOLUTIONS

#### BASE STATION ANTENNA AND SUBSYSTEMS

Leveraging its extensive experience in mobile telecommunication network construction and its supreme technology in the integration and miniaturisation of integrated multi-frequency and multisystem antenna developed over the years, the Group has a long-established leading position in the base station antenna market. It has been widely recognized by numerous domestic and overseas telecommunication network operators, equipment manufacturers and integrators, with antenna business presence in more than 100 countries and regions globally.

The deployment of the 5G-era network faces challenges such as limited antenna base station location spaces, and high cost of network construction and operation. This has set higher standards for multisystem integrated antenna. Following the technological development direction towards multi-frequency and multi-mode, integration and small and lightweight, the Group developed various base station antenna solutions in the 5G era that are applicable to different scenarios, such as the active 5G Massive MIMO antennas, 4G/5G convergent antenna product series, FDD ultra-multi-port multi-system shared antennas, and “A+P” integrated convergent antenna.

Leveraging the innovation of manufacturing processes and technologies, the Group has become highly competitive in the industry in terms of product performance indicators, volume, weight and product quality of highly integrated and complicated antennas. The major customer base of international market is gradually expanding with increased order size as compared to the Prior Period. The innovation-led 4G/5G(8TR) convergent antenna has become the mainstream solution for 5G network coverage. The 700M and 2.1G 5G base station antenna products in the domestic market have successively won the bids for certain antenna product projects of major telecom operators in Mainland China. In addition, the Group targeted the indoor coverage capacity of “5G broad indoor coverage” and introduced “innovative

solutions of antenna for broad indoor coverage” and “innovative antenna and subsystem solution for 5G rail transit coverage” targeted to high-speed rail and tunnel coverage, which have commenced the large-scale application in various provinces in Mainland China.

#### NETWORK PRODUCT SYSTEM SOLUTIONS

Comba Network Systems Company Limited (“Comba Network”), an indirect subsidiary of the Company, is principally engaged in the manufacture and sale of wireless telecommunications network system equipment and provision of related comprehensive solutions. It currently focuses on R&D, manufacturing and sale of network system products, including macro cells, small cells, related extended & in-depth coverage solutions and Open RAN products as well as provision of network solutions for the 5G vertical industry.

Comba Network is the pioneer of small cells that possesses the fully independent R&D ability in software and hardware with general agreed-upon specifications for 4G/5G access network. Comba Network has diversified products with the depth and coverage capacity covering the entirely scenario-based high-power cells, micro cells, pico cells, femto cells and the co-constructing and sharing indoor coverage and Open RAN products in mobile telecommunication. In respect of 5G vertical industries, it provides fundamental networks and platform solutions catering to the specific needs and applications of the target industry, promotes the application and implementation of 5G in vertical industries such as industrial, mining and medical sectors and empowers the smart upgrade of the industry.

Leveraging years of extensive experience in the design, development and deployment of radio frequency related products of mobile telecommunication, Comba Network has launched the standardized and platform-based high-power remote radio unit (RRU) product series, which has the advantage of supporting the advanced technologies such as multi-carrier and multi-mode, high efficiency and high capacity. This product series adopts ORAN Alliance’s

## MANAGEMENT DISCUSSION AND ANALYSIS

fronthaul gateway and thereby fulfills inter-connection and compatibility with the globally advanced manufacturers of base-band. Furthermore, Comba Network has entered into strategic cooperation with the leading integrators in the industry. During the Current Year, Comba Network has launched the industry's first two multi-mode Open RAN remote radio units (RRU) that respectively adopt Open RAN dual-frequency and tri-frequency design, thereby continuing to lead the technological innovation of the industry.

Comba Network's 5G small cell products have commenced commercial trial of the 5G products of the three major operators in more than ten provinces in Mainland China. In addition, certain projects for the commercial use of 5G small cells in various provinces have been contracted. The value and advantage of our low-cost and rapid 5G network construction are highly recognized by customers. Comba Network will actively participate in the centralized procurement of China Mobile's 5G extended small cells.

### MARKET EXPANSION

#### OPERATOR BUSINESS IN CHINA

During the Current Year, the three major operators launched the 5G commercial network in an orderly manner. Mainland China has the largest number of 5G macro cells and 5G users in the world. Its 5G development has entered a new stage of more in-depth deployment gradually.

Following the large-scale deployment of the 5G mobile network by the three major telecom operators intensively, the construction of the 5G network faces new challenges. The width of network coverage has to be considered during network construction and the development of low-to mid-frequency 5G spectrum is underway. The Group successfully won the bids for certain antenna product projects of major telecom operators in Mainland China, securing considerable market share in both sectors, which has shown the customers' full recognition of the Group and showcased the Group's technological

capability, innovation ability, manufacturing ability and comprehensive strength in the antenna sector and has laid a solid foundation for achieving the targeted performance in antenna and subsystem for this year and next year.

Furthermore, the deployment of 5G indoor coverage was widely discussed, which further optimized the coverage of the 5G network. In the first quarter of 2021, the Group successfully deployed its ComFlex Pro solution for 3 Hong Kong, enabling visitors and employees in various major landmark buildings in Hong Kong, China to enjoy 5G services seamlessly. The Group will continue to give full play to its R&D strengths developed over the years. In addition, it will continue to provide comprehensive business support to customers.

#### INTERNATIONAL BUSINESS

The Group's international marketing platform expands the overseas market actively by exploring customer demands, developing the target markets, developing new products and maintaining competitiveness of products. The Group achieved satisfactory results in the international business during the Current Year by capitalizing on its comprehensive strengths in product and technology. The Group will continue the steady cooperation with international mobile operators and globally leading telecom core equipment manufacturers for network construction in key regions. Apart from offering advanced 5G application solution to customers globally, it will tap into the demand for 4G massive network construction in various countries or regions in the world with imbalanced network development, so as to strengthen its position in the global market continuously. Meanwhile, the Group will continue to expand the Open RAN ecosystem, seek strategic partners, explore sales channels and conduct joint product R&D with an aim of promoting the growth of Open RAN business.

## MANAGEMENT DISCUSSION AND ANALYSIS

### NEW BUSINESS

The three major applications for 5G, namely enhancement of mobile broadband, large-scale internet of things, and ultra-reliable and low latency communication, will bring revolutionary changes to the mode of production and people's lifestyle in the future. During the Current Year, the Group continued to explore areas such as "5G+vertical industry applications" and promoted the effective integration of 5G technology with various aspects of intelligent manufacturing, including intelligent manufacturing workshop, flexible production lines and intelligent machinery. For instance, the Group made technological breakthroughs in the "5G+Mobile Robot" product series, established the AGV mainstream car model series and commenced the related pilot projects. In the future, the Group will actively develop related innovative business and strive to make contributions to its business results.

### CONCLUSION

In the past year, despite the upheaval and spread of pandemic worldwide, global economic activities managed to slowly recover, while 5G network construction resumed in an orderly manner. The Group will continue to proactively engage in the development of new 5G technologies and the research on advanced technologies and innovative products in the post-5G era so as to consistently provide products and services with high-cost efficiency for the 5G network upgrade of the global operators. By continuously improving the quality of the Company's operation, it will strive to create value for Shareholders and customers as a whole.

### LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The Group generally finances for its operations from cash flows generated internally and bank borrowings. As at 31 December 2021, the Group had net current assets of HK\$2,256,324,000. Current assets comprised inventories of HK\$1,356,335,000, trade receivables of HK\$4,129,136,000, notes receivable of HK\$97,109,000, prepayments, other receivables and other assets of HK\$626,994,000, financial assets at fair value through profit or loss of HK\$3,102,000, restricted bank deposits of HK\$107,900,000, time deposits of HK\$245,148,000 and cash and cash equivalents of HK\$1,652,228,000. Current liabilities comprised trade and bills payables of HK\$4,544,849,000, other payables and accruals of HK\$623,223,000, interest-bearing bank borrowings of HK\$644,739,000, tax payable of HK\$73,527,000 and provisions for product warranties of HK\$75,290,000.

The average receivable turnover for the Current Year was 257 days compared to 293 days for the Prior Year. The Group's trading terms with its customers are mainly on credit. The credit period is generally 3 months, except for certain customers which are granted with longer credit term. The balances also include retention money, which is for assurance that the product and service comply with agreed-upon specifications, of approximately 10% to 20% of the total contract sum of each project, and are generally receivable after final certification of products by customers, which would be performed 6 to 12 months after sale. The average payable turnover for the Current Year was 352 days compared to 407 days for the Prior Year. The average inventory turnover for the Current Year was 108 days compared to 125 days for the Prior Year.

## MANAGEMENT DISCUSSION AND ANALYSIS

As at 31 December 2021, the Group's cash and bank balances were mainly denominated in RMB, HK\$ and US\$ while the Group's bank borrowings were mainly denominated in RMB and HK\$. The interest rates on the Group's bank borrowings are principally on a floating basis at prevailing market rates.

In addition to the short-term interest-bearing facilities, the Group had also entered into 3-year term loan facility agreements with certain financial institutions during the Current Year. Details of bank borrowings are set out in note 26 to the consolidated financial statements.

The Group's revenue and expenses, assets and liabilities are mainly denominated in RMB, HK\$ and US\$. As at 31 December 2021, the Group has outstanding non-deliverable foreign currency option contracts in respect of Thai Baht, Indian Rupee and Renminbi with notional amount of US\$4,000,000, US\$10,000,000 and RMB175,000,000 respectively (31 December 2020: non-deliverable foreign currency option contracts in respect of Indonesian Rupiah, Indian Rupee and Brazilian Real with notional amount of US\$3,000,000, US\$5,000,000 and US\$5,000,000 respectively).

The Group will also closely monitor the fluctuation of exchange rate in other currencies and will consider hedging such foreign currency should the need arise.

The Group's gross gearing ratio, defined as total interest bearing bank borrowings divided by total assets, was 12.5% as at 31 December 2021 (31 December 2020: 12.2%).

In spite of the global outbreak of the COVID-19 pandemic, the Group's financial position remains sound with sufficient working capital.

### MATERIAL ACQUISITIONS AND DISPOSALS

The Group has not conducted any material acquisitions and disposals of subsidiaries and associated companies during the Current Year.

### USE OF PROCEEDS

On 28 April 2020, the top-up placing of a total of 282,000,000 ordinary shares of the Company of a nominal value of HK\$0.10 each at a placing price of HK\$3.05 per share to not less than six placees (who were professional, institutional and/or individual investors), together with their respective ultimate beneficial owners, are third parties independent of, not acting in concert and not connected with the Company or its connected persons (as defined under the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange")) (the "Placing") was completed.

On 8 May 2020, 150,000,000 and 80,000,000 new ordinary shares of the Company of a nominal value of HK\$0.10 each were issued and allotted to Prime Choice Investments Limited and Wise Logic Investments Limited, the substantial shareholders (as defined under the Listing Rules) of the Company, respectively at a subscription price of HK\$3.05 per share (the "Subscription").

The Placing and Subscription were undertaken to supplement the Group's long-term funding of its expansion and growth plan and to provide an opportunity to raise further capital for the Company whilst broadening the shareholder base and the capital base of the Company. The market price as stated in the daily quotations sheet issued by the Stock Exchange on 24 April 2020, being the date of execution of the agreement regarding the Placing and Subscription, was HK\$3.17 per share.

## MANAGEMENT DISCUSSION AND ANALYSIS

The net proceeds from the Placing and the Subscription as disclosed in the announcements of the Company dated 23 April 2020, 24 April 2020, 28 April 2020 and 8 May 2020 were approximately HK\$686,235,000 (after deducting the related costs and expenses) and the net subscription price of each share of the Company was approximately HK\$2.98 (after deducting the related costs and expenses). As at 31 December 2021, the Company has utilized the net proceeds, details are set out as follow:

### EXECUTIVE DIRECTORS

**Mr. Fok Tung Ling (霍東齡)**, aged 65, is one of the founders of Comba Telecom Systems Holdings Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”). He is the chairman (the “Chairman”) of the board of directors (the “Board”) and the authorized representative of the Company. He also holds various positions in the subsidiaries of the Company, including acting as legal representative and director. Mr. Fok is primarily responsible for leading the Board in determining the directions of the Group’s overall strategies and business development. From 1982 to 1987, Mr. Fok worked as a technical engineer in the Microwave Telecommunications Main Station of the Guangdong Bureau of Post and Telecommunications (廣東省郵電局微波通信總站). In 1986, he graduated from Beijing Institute of Posts and Telecommunications (北京郵電學院) (currently known as Beijing University of Posts and Telecommunications (北京郵電大學) (“BUPT”)), majoring in microwave communications. Prior to 1991, Mr. Fok worked as a marketing executive in China National Electronics Import & Export Corporation, South China Branch (中國電子進出口有限公司華南分公司) which was engaged in the import and export of electronic products. From 1991 to 1997, he was engaged in the trading of telecommunications and electronic equipment and components before co-founding the Group in 1997. Mr. Fok has over 40 years of experience in wireless communications. He is the sole director and shareholder of Prime Choice Investments Limited, which is a substantial shareholder of the Company. Mr. Fok is the father of Ms. Huo Xinru.

**Mr. Zhang Yue Jun (張躍軍)**, aged 63, is one of the founders of the Group. He is the vice chairman of the Board. He also holds various positions in the subsidiaries of the Company, including acting as legal representative and director. He also acted as the president of the Group from 1 October 2011 to 7 December 2018. Mr. Zhang is mainly responsible for assisting the Chairman in performing the latter’s duties and responsibilities, also taking the important role in monitoring the implementation of the Company’s strategies. Mr. Zhang graduated from South China Institute of Technology (華南工學院) (currently known as South China University of Technology (華南理工大學)) in 1982 and obtained a bachelor’s degree in wireless engineering. From 1982 to 1990, Mr. Zhang worked as a microwave telecommunications engineer in Nanjing and from 1990 to 1997, he was the deputy chief engineer of a joint venture company in Shenzhen and was mainly responsible for wireless telecommunications projects. Mr. Zhang has over 39 years of experience in wireless communications and he co-founded the Group in 1997. He is the sole director and shareholder of Wise Logic Investments Limited, which is a substantial shareholder of the Company.

## DIRECTORS AND SENIOR MANAGEMENT

**Mr. Xu Huijun (徐慧俊)**, aged 48, is an executive director of the Company and the president of the Group. He also holds various positions in the subsidiaries of the Company, including acting as legal representative, director and general manager. Mr. Xu is mainly responsible for the Group's overall operation, management, business development, research and development of new technologies and products and supply chain system. Mr. Xu graduated from Tsinghua University in 1998 with a master's degree in engineering and joined ZTE Corporation ("ZTE") in the same year. He had served as system engineer, project manager, deputy head and head of Beijing Research Centre of ZTE from 1998 to 2003. He was senior vice president of ZTE from 2004 to March 2016, having been in charge of the General Product Division, Engineering Services under the Sales System, Engineering Service Division and Wireless Product Division. He had been executive vice president and chief technology officer (CTO) of ZTE from April 2016 to July 2018, in full charge of the operation of system products and management of research and development. Mr. Xu has over 23 years of management experience in telecommunications industry. Mr. Xu joined the Group in August 2018.

After reporting its interim and annual results, the Group holds press conference and investor presentation/conference call where the financial performance, business review and prospect of the Group are presented. This also sets an open communication platform for the Group’s senior management to address any questions that the investment community and the media may have. Web-cast presentation is then sent to Shareholders and investors around the world to ensure information is disseminated on a fair and timely basis. The Group issues press releases and announcements where appropriate to provide updated information about the Group’s business development in a timely manner. The Group also updates its website regularly to ensure information about its latest development disseminated promptly.

Due to the continued lockdown policy brought by the outbreak of coronavirus disease 2019 in early 2020, the Group’s investor relations activities were held via teleconference instead when appropriate. During the Current Year, the Group’s senior management attended over 50 investor meetings. This allowed the investment community to understand the business of the Group better. As a result of various investor relations activities undertaken, as at the end of the Current Year, 6 securities companies provided research coverage on the Group.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## I. SUMMARY AND SCOPE OF REPORT

This report is compiled under the Environmental, Social and Governance Reporting Guide as set out in Appendix 27 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. The disclosure in this report has objectively, fairly and truly reflected the work achievements and practices regarding the environmental and social matters of Comba Telecom Systems Holdings Limited (the “Company”) and its subsidiaries (collectively referred to as the “Group”) in 2021. This report adopts a consistent information statistical method where the scope of information statistics in 2021 is consistent with that of 2020.

The Group recognizes “Connecting the World to Promote the Progress of Human Civilization” as corporate vision and “Achieving Innovation and Development in the Information Communications Technology Areas to Provide Customers with Excellent Communications and Information Solutions and Services” as corporate mission. Considering its customers, employees, shareholders and the government as the basic elements to achieve business core values, the Group is devoted to creating ideal values for customers, co-developing better life quality as well as leading the way and giving back to society. By adhering to the long-held core culture of “Pursuing Perfection and Harmony”, the Group pays close attention to policy and market changes to effectively control risks, and is committed to integrating sustainable development and social responsibility into its corporate culture.

This report is designed to convey the Group’s influence, policies and corresponding measures on environmental, social and governance (“ESG”) aspects to relevant individuals in various sectors of the community.

This report covers the performance indicators from 1 January 2021 to 31 December 2021. The indicators related to environment are mainly sourced from Comba Telecom’s headquarter and research and development (the “R&D”) base in Guangzhou Science City, the manufacturing base in Guangzhou Development Zone, head office in Hong Kong and the main sales offices at home and abroad as their profit contributions to the Group are fairly representative and important.

## II. ESG RESPONSIBILITY MANAGEMENT

The board of directors (the “Board”) of the Company assumes the overall responsibility on the Company’s management tactics and reports on ESG as well as for the identification, assessment and determination of the risks of the Company concerning ESG, and ensures that the Company has established a proper and effective system of ESG risk management and internal control.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Company reported its progress in fulfilling the annual safety production goals, and reviewed the result based on its annual responsibility goals so as to conduct planning for safety management for the following year on the basis of the fulfillment status in 2021. Monthly reports on management and control of energy, as well as inspection of production safety have been prepared, while management and control responsibilities have been assigned to individuals, with a view to raising and cultivating awareness of energy conservation and production safety amongst all staff. Regularly organize targeted training for department leaders, project leaders and employees, implement safety responsibilities, improve the awareness of independent safety production, and ensure that everyone has the awareness of safety and everyone manages safety. All staff are required to sign the Safety Production Responsibility Paper (《安全生產責任書》). In addition to providing supervision and guidance, the Board regularly listens to management teams' reports on production safety, operation and management, internal control and corporate social responsibility. The Board assesses and ranks risk hierarchies, taking consideration of, among others, the impacts on our corporate strategies, policies, procedures and commitment, impacts on the Company's competitive edges and management excellence, and current and future financial impacts on the Company. Major considerations of external stakeholders conducting materiality assessment include impacts on the Company's evaluation and decision-making, and on the interests of themselves. The Company has established an ESG work leadership group which is responsible for making decisions on major issues during the process of the guideline implementation and conducting assessment and providing feedbacks on the effectiveness of its management. The management of major risks such as production safety, employee health, energy conservation and environmental protection, intellectual property rights, fraud risk, internal control and corporate culture has already been incorporated into the daily work and comprehensively ensured the effectiveness and applicability of the Company's ESG management.

The Group manages the enterprise in accordance with the law, insists on operating in accordance with the law, operating with integrity, abides by relevant laws and regulations and industry regulatory rules, and establishes a law-abiding and compliance system in terms of internal control construction, audit supervision, corruption prevention and comprehensive risk management. It establishes and improves long-term communication mechanism, standardizes the disclosure of corporate information, and consciously accepts governmental supervision and social supervision. It improves communication with stakeholders such as investors, customers, employees, governmental and regulatory authorities, and communities by ways of announcements, reports, conferences, service hotlines and events, listens carefully to stakeholders' expectations and demands, and actively responds to them. The Company will resolutely pursue a safe, green, effective and sustainable development. Based on the investigation on the environment systems, the Company consolidates the sustainable development dimensions in relation to social and corporate governance, at the same time comprehensively identifies and evaluates corporate risks and responsibilities or opportunities, in a bid to ensure the compliance with the responsible investment principle and generate effective and sustainable returns for its investors and stakeholders. It has become more important than ever to maintain good ESG practices in a business model. We aim to reduce the impact of global warming and improve air quality as well as being committed to instilling the awareness of resource conservation by reducing the discharge of substantial amount of wastewater and exhaust gas generated during operation. The Group also strives to incorporate the concept of low carbon and environmental protection into work and daily life intensively with a view to jointly building a greener and healthier environment.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### IV. ENVIRONMENTAL PROTECTION AND RESOURCE UTILIZATION

The Group has been committed to achieving the sustainable development goal of environmental protection and energy saving. By implementing the Environmental and Quality Management System to manage the environment in a systematic manner, the Group strives to deliver the development strategy of balancing environment, society and economy. The Group has adopted the management concept of life cycle in all the business activities worldwide to minimize adverse effect on environment while producing and offering services, perform its compliance obligations and enhance environmental performance, thus contributing to the better prevention of environment pollution and the sustainable development of society.

#### (I) EMISSIONS

To implement relevant laws and regulations promulgated by the People's Republic of China ("PRC") such as Environmental Protection Law (《環境保護法》), the Law on the Prevention and Control of Air Pollution (《大氣污染防治法》), the Law on the Prevention and Control of Water Pollution (《水污染防治法》), the Group sets a goal of environmental management to achieve pollution reduction and emission control and strictly monitor waste discharge during the course of production by setting up ISO14001 Environmental Management System and carrying out environmental control procedures as well as environmental monitoring and measurement control procedures pursuant to the working guideline of "standardizing the works of environmental management, taking precaution as the main task, fulfilling regulation requirement, satisfying the standards of emission to make sure that it is under control and continuing to save energy and reduce consumption", with the aim to ensure the management and control of pollution at source.

The Group is committed to achieving environmental and social sustainability in its daily operations. In terms of environmental aspects of the 2021 sustainable development goal, we continue to ensure zero fine in exhaust gas emission. Wastes in each production area are discharged after treatment in accordance with the approved requirements based on the evaluation on the impact on the environment and the production areas shall perform annual review to ensure legal and compliant emission of exhaust gas. Designated dumping areas in each production base segregated wastes by licensed waste collectors and the garbage in the bases was strictly sorted and recycled.

During production process of the Group, there is no emission of industrial wastewater. All the toxic waste generated by the Group, including waste containers, bulbs, coolant oil, waste activated carbon, etc., will undergo professional recycling and processing by qualified waste recycling and processing companies. The Group has entered into contracts for hazardous waste treatment with companies that have obtained national qualification for hazardous waste treatment to carry out regular waste disposal. The Group has also signed treatment orders for hazardous wastes to be regularly reported on the government website for reporting hazardous wastes. Non-hazardous waste mainly includes domestic waste generating from daily office works and canteen of the Company, which has been treated in strict compliance with the sorting principle. Raw material wastes such as vegetables, roots and animal offal should be treated as domestic wastes; swills should be disposed into swill buckets as required; canteen garbage should be dumped into the garbage pool in a centralized manner and dumping at will is prohibited. In 2021, the Group recycled and processed 18,000 tons of various wastes. Indirect emissions from external production of electricity and employees' business trips are the major source of the Group's greenhouse gas emission. In 2021, the equivalent amount of carbon dioxide (CO<sub>2</sub>) emission for sales revenue per ten thousand was 0.042 tonnes. The emission density of greenhouse gas continued to decline compared with that of 2020.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Group built a new dormitory building in 2021. During the construction of the dormitory building, the Group actively protected arable land, prevented construction impact on it, implemented environmental protection measures, and ensured compliance with government regulatory requirements. Besides, the Group reduced noise hazards during construction, carried out noise inspections regularly and ensured compliance with standards.

In 2021, the Group continued to optimize solutions and scope for using administrative cars. Administrative cars can only be used for important corporate business entertainments. The fleet arrangements during daily operation shall be reasonable and user-friendly to avoid unnecessary car rent. For non-essential business, staff are encouraged to take public transport or choose ride-hailing services via more affordable third party platforms. The Group also consolidated the frequency and routes of the Company's shuttle buses for many times based on the actual situation. The Group has carried out regular supervision over and assessment of the service quality of the outsourcing service companies, enhanced the degree of informationization of its documents, optimized offline working procedures, formulated online working procedures to encourage paperless office work so as to reduce paper consumption while printing, at the same time conscientiously implementing the relevant PRC laws and regulations and strictly implementing waste sorting system, thereby effectively controlling emission of pollution.

- Greenhouse gas emissions are calculated based on, amongst others, EMFAC-HK Vehicle Emission Calculation Model issued by The Hong Kong Environmental Protection Department and the MOBILE6. Particulate Emission Factor released by the United States Environmental Protection Agency. Direct greenhouse gas emissions (scope 1) include the greenhouse gas emissions arising from using petrol and diesel. Indirect energy greenhouse gas emissions (scope 2) represent such emissions resulted from internal consumption of electricity, heating, refrigeration and steam within the Company. Scope 3 covers all other indirect greenhouse gas emissions generated outside of the Company, including emissions from wastepaper, sewage treatment and business trips of employees.
- The total greenhouse gas emissions are the sum of the direct greenhouse gas emissions (scope 1), indirect greenhouse gas emissions (scope 2) and other indirect greenhouse gas emissions (scope 3).
- The volume of sewage discharge is calculated according to the amount of water used. The sewage discharge coefficient is based on National Standard for Urban Drainage Works Planning Specification of the People's Republic of China (《中華人民共和國國家標準城市排水工程規劃規範》) and relevant documents of the National Bureau of Statistics of the PRC.
- The volume of non-hazardous waste emission is measured based on the per capita household waste output coefficient as specified in the guidance released by the State Council of the PRC.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### (II) RESOURCE UTILIZATION

The Group takes a careful consideration of environment factors throughout the life cycle of its products and services to provide its products with the characteristics of energy and natural resource saving and non-pollution in each procedure of R&D, production, sale, transportation, utilization and abandonment. The Company effectively manages the water consumption and waste water treatment to reduce environment pollution, actively promotes the concept of water conservation through publicity and educational activities, routine inspection and regular reporting and posting of wasting behaviors. The Group did not encounter any difficulties in seeking appropriate water sources. The Group also increases the frequency of daily inspection and performs around-the-clock regular and non-regular inspections on power and water utilization in each floor and each department of the base; maintains proper inspection records and publicly criticizes the departments with behaviors of wasting. As a result, the electricity consumption reduced by 12% year-on-year. We strive to reduce the utilization of hazardous and toxic substances in each procedure, proactively seeks, develops and uses new environmental technologies and materials and encourages recycling of all materials, while for resource and energy consumption, the Group promotes active application of energy-efficient products, equipment and techniques to reduce energy consumption.

After the gradual development from the 11th to 13th Five-Year Plan, the “14th Five-Year Plan” further proposed to improve the dual control system of total energy consumption and intensity. In order to actively respond to the policy of dual control of energy consumption, the Group formulated specific energy-saving and emission-reduction measures based on the actual situation in March. Starting from all aspects of office energy consumption (air conditioners, energy-saving lamps), personnel control and regional control, the Group advocated “start with me”, took the lead in discovering new technologies, new tips and new processes for energy saving and consumption reduction, and strove to make due contributions to facilitate energy saving and consumption reduction by some good methods.

During the year, the Group continued to optimize and reform its product packaging. The Group prioritized the adoption of environment-friendly technologies in the construction of new projects, during which an inspection report shall be submitted regarding the materials used so that all materials can meet national requirements for environmental protection and will not cause contamination to the surrounding environment when used. The Group also reduced the use of packaging accessories and packaging materials, at the same time planting more trees in the Knowledge City. According to the preset scheme, a tree may reduce CO<sub>2</sub> emission by 23 kg per year, the addition of 17 trees may reduce CO<sub>2</sub> emission by 0.39 ton.

1. Packaging accessories kit include assembly materials, plastic bags, labels and packaging accessories (discs, manuals and certificates)
2. Packaging materials include straps and carton-sealing tapes
3. Packaging boxes include paper boxes and wooden boxes

### (III) ENVIRONMENT AND NATURAL RESOURCES

The Group is proactive in enhancing staff awareness of and responsibility towards environmental protection. All the employees in each of its branches worldwide are required to comply with local laws and regulations in respect of environment, safety and health. In the absence of local laws and regulations, they are encouraged to provide assistance in solving environmental issues as possible as they can under relevant standards of the Group.

The Group has set up scientific goals in environment and energy consumption, and continuously evaluates, improves and consolidates the synergy among the Group's operating activities, products and the environment. In addition, the Group communicates environmental information with stakeholders in a timely manner. Furthermore, the Group also focuses on environmental factors in selecting and managing suppliers and outsourcers.

The Group has reduced its negative impact on the environment and natural resources by pursuing high quality products, including the reduction of repair rate of products and reported damage rate of machines. The Group has implemented flexible layout and upgraded its intelligent manufacturing equipment in its production workshops during the reporting period. All pieces of equipment have been connected to optimize the intelligent deployment in the life cycle of products so as to improve operation efficiency of products, reduce the repair rate in the market, and increase the useful life of machines.

### (IV) CLIMATE CHANGE

Mainland China, Hong Kong and other regions in PRC and abroad where the Group's major sales offices located pay attention to major climate policies and comply with local laws and regulations related to environmental protection. Currently climate factors have no material impact on the Company's production and operation. The Company will closely monitor the impact of extreme weather conditions, such as typhoons, strong wind, extreme cold and humidity, on the production and logistic processes, make corresponding predictions and take preventive measures such as upgrading and optimizing environmental protection products and enhancing product performance so as to reduce the impact of climate change on product performance and direct operation.

The Group has established supplier acceptance, performance appraisal and exit mechanisms, by which the regulated management of key processes of supply chain such as the placing of purchase order, the entering of contracts, product acceptance and the settlement is achieved.

| Locations of suppliers                   | 2021  | 2020  | Comparison |
|--|-------|-------|------------|
| First-tier cities in the PRC             | 307   | 305   | 0.66% ↑    |
| Other cities in the PRC                  | 264   | 216   | 22.22% ↑   |
| Overseas (including Hong Kong and Macau) | 528   | 578   | 8.65% ↓    |
| Total                                    | 1,099 | 1,099 | –          |

The Group implements comprehensive certification of its newly introduced suppliers, which includes certification of sustainable development system. The Group regards sustainable development as one of the basic conditions and requirements in introducing suppliers, so as to assess suppliers' capability and level to comply with laws and regulations and sustainable development agreements. Suppliers are required to carry out business based on the fact that they have complied with applicable laws and regulations and met the requirements under sustainable development. The Group has entered into Agreement of Corporate Social Responsibility (《企業社會責任協定》) with material suppliers to constraint their code of conduct on integrity and law abiding, human rights, labor standards, health and safety, environment and prohibited commercial transactions, which is a necessity to carry out supplier certification, audit and performance assessment. During the year, more than 520 suppliers have signed the agreement.

The results of supplier performance assessment are utilized to supplier management to promote their sustained improvement. Suppliers are subject to annual comprehensive assessment based on various factors such as their business volume, daily assessment, quality performance, RoHS risk, environment and safety. Over 43 suppliers have been selected for on-site audit in 2021. Suppliers with excellent performance are entitled to increase purchase percentage on the same conditions and provided with priority of business cooperation. Suppliers with poor grade in performance assessment are provided with respective training and coaching, so as to drive suppliers to regard corporate social responsibility as a requirement of product and production, and integrate it into business decision making and daily operation, thus establishing effective management system.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Group attaches great importance to the issue of conflict minerals and publicly states that it will not purchase or support the utilization of conflict minerals. All suppliers are required not to purchase conflict minerals and their sub-suppliers are also so required. The Group identifies the material lists and supplier lists relating to conflict minerals in accordance with OECD Guidelines for Due Diligence of Conflict Minerals (《OECD 衝突礦物盡職調查指南》) and adopts conflict mineral questionnaire (CMRT Form) under Global Conflict Free Sourcing Initiative (全球無衝突採購倡議) (CFSI) to carry out due diligence and analysis on 90% of its suppliers.

The Group has taken incentive measures for outstanding suppliers, such as increasing the proportion of down payment and making priority payment to them. It also takes disciplinary measures such as urging improvement and restricting procurement for unqualified suppliers. For suppliers committing misconduct, the Group takes disciplinary actions such as downgrading their financial ratings, adjusting share of procurement from them, restricting procurement and prohibiting procurement, so as to gradually enhance suppliers' awareness of contract performance, and promote the suppliers' honest cooperation.

The Group also attaches importance to environmental risks. For the acceptance of suppliers, the Group collects the RoHS testing qualified report from suppliers and formulates a period for the renewal of such report, in order to carry out regular monitoring on suppliers' results of RoHS testing, thereby promoting the use of environmentally-friendly materials by suppliers. Over 310 renewed RoHS testing qualified report are collected in this year.

*(Incorporated in the Cayman Islands with limited liability)*

## OPINION

We have audited the consolidated financial statements of Comba Telecom Systems Holdings Limited (the “Company”) and its subsidiaries (the “Group”) set out on pages 76 to 181, which comprise the consolidated statement of financial position as at 31 December 2021, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSAs”) issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor’s responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the HKICPA’s *Code of Ethics for Professional Accountants* (the “Code”), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor’s responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

## INDEPENDENT AUDITOR'S REPORT

### Key audit matter

#### *Inventory provision*

The Group is principally engaged in the research, development, manufacture and sale of wireless telecommunications network system equipment and the provision of related engineering services. Since the technology develops rapidly in the telecommunications industry, the Group's inventories are subject to significant risk of obsolescence and significant management's judgements and estimates were involved in determining the provisions against obsolete and slow-moving inventories. We focused on this area because balances of inventories were significant to the Group (12% of total assets) and inventory provision was made based on subjective estimates and was influenced by assumptions concerning future consumption.

The Group's disclosures about accounting judgements and estimates relating to and the recognition of inventory provision are included in notes 3 and 6 to the consolidated financial statements.

#### *Impairment of trade receivables*

Trade receivables comprised 36% of total assets in the consolidated statement of financial position at 31 December 2021.

The Group applied a forward-looking expected credit loss model on impairment of trade receivables. This involved judgement as the expected credit losses must reflect information about past events, current conditions and forecasts of future conditions, as well as the time value of money.

Due to the significance of trade receivables and the related estimation uncertainty, this is considered a key audit matter.

Details of the impairment of trade receivables are disclosed in notes 3 and 21 to the consolidated financial statements.

### How our audit addressed the key audit matter

We evaluated the sales forecasts prepared by management for the purpose of identifying slow-moving and obsolete inventories by checking, on a sample basis, to the sales orders and agreements, and assessing the estimated sales by taking into account the accuracy of previous estimations, the historical evidence supporting underlying assumptions and current market conditions. We also tested, on a sample basis, the accuracy of the inventories ageing report. For the net realizable value of obsolete and slow-moving inventories identified, we checked a sample of recent sales invoices for the value.

We evaluated management's assessment on impairment of trade receivables by checking, on a sample basis, the ageing analysis and settlements made subsequent to the year-end date. For long-aged receivables, we have assessed the Group's provision by considering historical payment patterns, available information concerning the creditworthiness of the customers and any correspondence with customers on expected settlement dates which we sample tested the settlements for proper execution of such repayment schedules. For balances where a provision for impairment was recognized, we understood the rationale behind management's judgement, considering historical patterns of trading and settlement, current economic conditions and forward-looking information as well as recent communications with the counterparties.

## INDEPENDENT AUDITOR'S REPORT

### Key audit matter

#### *Goodwill and intangible asset impairment review*

As at 31 December 2021, the Group recorded goodwill and intangible assets of HK\$243 million and HK\$467 million, respectively, as a result of previous acquisitions. Under HKFRSs, goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Company performs its annual impairment test on each cash-generating unit to assess whether the goodwill might be impaired as at 31 December. In addition, each year, the Company assesses whether a change in useful life is applicable and/or whether there are any indications of impairment for intangible assets. The test and assessment are largely based on management's expectations and estimates of future results of the (group of) cash-generating units which include the entities acquired in the past. The impairment test is based on the recoverable value of the relevant cash-generating units. The key assumptions and results of the test performed are disclosed in note 14 to the consolidated financial statements.

The accounting policies, significant accounting judgements and estimates and disclosures for goodwill are included in notes 2.4, 3 and 14 to the consolidated financial statements.

### How our audit addressed the key audit matter

We examined the forecasted cash flows of the respective cash generating units which underpin management's impairment review. We tested the basis of preparing those forecasts taking into account the historical data supporting underlying assumptions. Future cash flow assumptions were examined through comparison with current business performance, seeking corroborative evidences and enquiry with management in respect of key growth and business assumptions. The key assumptions such as the discount rate and terminal growth rate were tested with appropriate inputs from our internal valuation experts. We also focused on the adequacy of the Group's disclosures of goodwill.

## OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## INDEPENDENT AUDITOR'S REPORT

### RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

## INDEPENDENT AUDITOR'S REPORT

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is M.L. Chau.

## Notes:

\* These are wholly-foreign-owned enterprises under PRC law.

\*\* This is a joint stock company limited by shares under PRC law.

\*\*\* These are limited partnerships registered under PRC law, accounted for as subsidiaries of the Group even though the Group has less than 50% equity interest in these companies based on the factors explained in note 3 to the consolidated financial statements.

The above table lists the subsidiaries of the Company which, in the opinion of the directors of the Company, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors of the Company, result in particulars of excessive length.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for certain buildings classified as property, plant and equipment, redeemable preferred shares in a subsidiary, forward currency contracts and equity investments which have been measured at fair value. These financial statements are presented in Hong Kong dollars and all values are rounded to the nearest thousand except when otherwise indicated.

### BASIS OF CONSOLIDATION

The consolidated financial statements include the financial statements of the Group for the year ended 31 December 2021. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group’s voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognizes (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognizes (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group’s share of components previously recognized in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following revised HKFRSs for the first time for the current year's financial statements.

|  |  |
|--|--|
| Amendments to HKFRS 9, HKAS 39, HKFRS 7,<br>HKFRS 4 and HKFRS 16 | <i>Interest Rate Benchmark Reform – Phase 2</i>                                  |
| Amendment to HKFRS 16  | <i>Covid-19-Related Rent Concessions beyond 30 June<br/>2021 (early adopted)</i> |

The nature and the impact of the revised HKFRSs are described below:

- (a) Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16 address issues not dealt with in the previous amendments which affect financial reporting when an existing interest rate benchmark is replaced with an alternative risk-free rate (“RFR”). The Phase 2 amendments provide a practical expedient to allow the effective interest rate to be updated without adjusting the carrying amount of financial assets and liabilities when accounting for changes in the basis for determining the contractual cash flows of financial assets and liabilities, if the change is a direct consequence of the interest rate benchmark reform and the new basis for determining the contractual cash flows is economically equivalent to the previous basis immediately preceding the change. In addition, the amendments permit changes required by the interest rate benchmark reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued. Any gains or losses that could arise on transition are dealt with through the normal requirements of HKFRS 9 to measure and recognise hedge ineffectiveness. The amendments also provide a temporary relief to entities from having to meet the separately identifiable requirement when an RFR is designated as a risk component. The relief allows an entity, upon designation of the hedge, to assume that the separately identifiable requirement is met, provided the entity reasonably expects the RFR risk component to become separately identifiable within the next 24 months. Furthermore, the amendments require an entity to disclose additional information to enable users of financial statements to understand the effect of interest rate benchmark reform on an entity's financial instruments and risk management strategy. The amendments did not have any impact on the financial position and performance of the Group.
- (b) Amendment to HKFRS 16 issued in April 2021 extends the availability of the practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the covid-19 pandemic by 12 months. Accordingly, the practical expedient applies to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022, provided the other conditions for applying the practical expedient are met. The amendment is effective retrospectively for annual periods beginning on or after 1 April 2021 with any cumulative effect of initially applying the amendment recognised as an adjustment to the opening balance of retained profits at the beginning of the current accounting period. Earlier application is permitted.

The Group has early adopted the amendment on 1 January 2021 and applied the practical expedient during the year ended 31 December 2021 to all rent concessions granted by the lessors that affected only payments originally due on or before 30 June 2022 as a direct consequence of the covid-19 pandemic. A reduction in the lease payments arising from the rent concessions of HK\$551,000 has been accounted for as a variable lease payment by derecognising part of the lease liabilities and crediting to profit or loss for the year ended 31 December 2021. There was no impact on the opening balance of equity as at 1 January 2021.

### 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS

The Group has not applied the following revised HKFRSs, that have been issued but are not yet effective, in these financial statements.

|   |  |
|---|--|
| Amendments to HKFRS 3                               | <i>Reference to the Conceptual Framework<sup>1</sup></i>   |
| Amendments to HKFRS 10 and HKAS 28 (2011)           | <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture<sup>3</sup></i> |
| Amendments to HKAS 1                                | <i>Classification of Liabilities as Current or Non-current<sup>2,4</sup></i>                             |
| Amendments to HKAS 1 and HKFRS Practice Statement 2 | <i>Disclosure of Accounting Policies<sup>2</sup></i>   |
| Amendments to HKAS 8                                | <i>Definition of Accounting Estimates<sup>2</sup></i>  |
| Amendments to HKAS 12                               | <i>Deferred Tax related to Assets and Liabilities arising from a Single Transaction<sup>2</sup></i>      |
| Amendments to HKAS 16                               | <i>Property, Plant and Equipment: Proceeds before Intended Use<sup>1</sup></i>                           |
| Amendments to HKAS 37                               | <i>Onerous Contracts – Cost of Fulfilling a Contract<sup>1</sup></i>                                     |
| <i>Annual Improvements to HKFRSs 2018-2020</i>      | Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41 <sup>1</sup>    |

<sup>1</sup> Effective for annual periods beginning on or after 1 January 2022

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2023

<sup>3</sup> No mandatory effective date yet determined but available for adoption

<sup>4</sup> As a consequence of the amendments to HKAS 1, Hong Kong Interpretation 5 *Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause* was revised in October 2020 to align the corresponding wording with no change in conclusion

Further information about those HKFRSs that are expected to be applicable to the Group is described below.

Amendments to HKFRS 3 are intended to replace a reference to the previous Framework for the Preparation and Presentation of Financial Statements with a reference to the Conceptual Framework for Financial Reporting issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK(IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK(IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group expects to adopt the amendments prospectively from 1 January 2022. Since the amendments apply prospectively to business combinations for which the acquisition date is on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(continued)*

Amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss resulting from a downstream transaction when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 (2011) was removed by the HKICPA in January 2016 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to HKAS 1 *Classification of Liabilities as Current or Non-current* clarify the requirements for classifying liabilities as current or non-current. The amendments specify that if an entity's right to defer settlement of a liability is subject to the entity complying with specified conditions, the entity has a right to defer settlement of the liability at the end of the reporting period if it complies with those conditions at that date. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement of the liability. The amendments also clarify the situations that are considered a settlement of a liability. The amendments are effective for annual periods beginning on or after 1 January 2023 and shall be applied retrospectively. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 1 *Disclosure of Accounting Policies* require entities to disclose their material accounting policy information rather than their significant accounting policies. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Amendments to HKFRS Practice Statement 2 provide non-mandatory guidance on how to apply the concept of materiality to accounting policy disclosures. Amendments to HKAS 1 are effective for annual periods beginning on or after 1 January 2023 and earlier application is permitted. Since the guidance provided in the amendments to HKFRS Practice Statement 2 is non-mandatory, an effective date for these amendments is not necessary. The Group is currently assessing the impact of the amendments on the Group's accounting policy disclosures.

Amendments to HKAS 8 clarify the distinction between changes in accounting estimates and changes in accounting policies. Accounting estimates are defined as monetary amounts in financial statements that are subject to measurement uncertainty. The amendments also clarify how entities use measurement techniques and inputs to develop accounting estimates. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and apply to changes in accounting policies and changes in accounting estimates that occur on or after the start of that period. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

## NOTES TO FINANCIAL STATEMENTS

### 2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS *(continued)*

Amendments to HKAS 12 narrow the scope of the initial recognition exception so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences, such as leases and decommissioning obligations. Therefore, entities are required to recognise a deferred tax asset and a deferred tax liability for temporary differences arising from these transactions. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and shall be applied to transactions related to leases and decommissioning obligations at the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to the opening balance of retained profits or other component of equity as appropriate at that date. In addition, the amendments shall be applied prospectively to transactions other than leases and decommissioning obligations. Earlier application is permitted.

The Group has applied the initial recognition exception and did not recognise a deferred tax asset and a deferred tax liability for temporary differences for transactions related to leases. Upon initial application of these amendments, the Group will recognise a deferred tax asset and a deferred tax liability for deductible and taxable temporary differences associated with right-of-use assets and lease liabilities, and recognise the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained profits at the beginning of the earliest comparative period presented.

Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied retrospectively only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the entity first applies the amendments. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKAS 37 clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The amendments are effective for annual periods beginning on or after 1 January 2022 and shall be applied to contracts for which an entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments. Earlier application is permitted. Any cumulative effect of initially applying the amendments shall be recognised as an adjustment to the opening equity at the date of initial application without restating the comparative information. The amendments are not expected to have any significant impact on the Group's financial statements.

*Annual Improvements to HKFRSs 2018-2020* sets out amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41. Details of the amendments that are expected to be applicable to the Group are as follows:

- HKFRS 9 *Financial Instruments*: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendment is effective for annual periods beginning on or after 1 January 2022. Earlier application is permitted. The amendment is not expected to have a significant impact on the Group's financial statements.
- HKFRS 16 *Leases*: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying HKFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying HKFRS 16.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### INVESTMENTS IN ASSOCIATES AND JOINT VENTURES

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses.

The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated statement of profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's investments in associates or joint ventures.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### INVESTMENTS IN ASSOCIATES AND JOINT VENTURES (continued)

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

When an investment in an associate or a joint venture is classified as held for sale, it is accounted for in accordance with HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations.

#### BUSINESS COMBINATIONS AND GOODWILL

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets includes an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognized in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognized in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognized for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognized in profit or loss as a gain on bargain purchase.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### BUSINESS COMBINATIONS AND GOODWILL (continued)

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognized. An impairment loss recognized for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

#### FAIR VALUE MEASUREMENT

The Group measures its redeemable preferred shares in a subsidiary, forward currency contracts and equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### FAIR VALUE MEASUREMENT (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### IMPAIRMENT OF NON-FINANCIAL ASSETS

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, deferred tax assets and financial assets), the asset's recoverable amount is estimated. An asset's recoverable amount is calculated as the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognized only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognized impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognized impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortization) had no impairment loss been recognized for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

#### RELATED PARTIES

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
  - (i) the entity and the Group are members of the same group;
  - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
  - (iii) the entity and the Group are joint ventures of the same third party;
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
  - (vi) the entity is controlled or jointly controlled by a person identified in (a);
  - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
  - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### PROPERTY, PLANT AND EQUIPMENT AND DEPRECIATION

Property, plant and equipment, other than construction in progress are stated at cost or valuation less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalized in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognizes such parts as individual assets with specific useful lives and depreciates them accordingly.

Valuations are performed frequently enough to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Changes in the values of property, plant and equipment are dealt with as movements in the asset revaluation reserve. If the total of this reserve is insufficient to cover a deficit, on an individual asset basis, the excess of the deficit is charged to the statement of profit or loss. Any subsequent revaluation surplus is credited to the statement of profit or loss to the extent of the deficit previously charged. An annual transfer from the asset revaluation reserve to retained profits is made for the difference between the depreciation based on the revalued carrying amount of an asset and the depreciation based on the asset's original cost. On disposal of a revalued asset, the relevant portion of the asset revaluation reserve realized in respect of previous valuations is transferred to retained profits as a movement in reserves.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

|  |                 |
|--|-----------------|
| Freehold land                            | Not depreciated |
| Buildings                                | 4.5%            |
| Staff quarters                           | 4.5%            |
| Plant and machinery                      | 9%-20%          |
| Furniture, fixtures and office equipment | 10%-30%         |
| Motor vehicles                           | 18%-20%         |

Buildings are stated at valuation less accumulated depreciation and any impairment losses except for staff quarters. Staff quarters are stated at cost less accumulated depreciation and any impairment losses.

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognized in the statement of profit or loss in the year the asset is derecognized is the difference between the net sales proceeds and the carrying amount of the relevant asset.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### PROPERTY, PLANT AND EQUIPMENT AND DEPRECIATION (continued)

Construction in progress is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalized borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

#### INTANGIBLE ASSETS (OTHER THAN GOODWILL)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash-generating unit level. Such intangible assets are not amortized. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether the indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is accounted for on a prospective basis.

#### Computer software and technology

The purchased computer software and technology are stated at cost less any impairment losses and are amortized on the straight-line basis over their estimated useful lives of 3 to 10 years.

#### Golf club membership

Golf club membership with an indefinite useful life is tested for impairment annually. Such intangible asset is not amortized. The useful life is reviewed at the end of each reporting period to determine whether events and circumstances continue to support an indefinite useful life assessment for that asset.

#### Operating license

Operating license is stated at cost less any impairment loss and is amortized on the straight-line basis over its estimated useful lives of 25 years.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### INTANGIBLE ASSETS (OTHER THAN GOODWILL) (continued)

##### Research and development expenses

All research costs are charged to the statement of profit or loss as incurred.

Expenditure incurred on projects to develop new products is capitalized and deferred only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the project and the ability to measure reliably the expenditure during the development. Product development expenditure which does not meet these criteria is expensed when incurred.

Deferred development costs are stated at cost less any impairment losses and are amortized using the straight-line basis over the commercial lives of the underlying products not exceeding three years, commencing from the date when the products are put into commercial production.

#### LEASES

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

##### Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

##### (a) Right-of-use assets

Right-of-use assets are recognized at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

|                                    |                         |
|------------------------------------|-------------------------|
| Prepaid land lease payments        | 50 years                |
| Buildings                          | More than 1 to 10 years |
| Telecom towers and other equipment | More than 1 to 10 years |

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### LEASES (continued)

##### Group as a lessee (continued)

##### (b) Lease liabilities

Lease liabilities are recognized at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognized as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

The Group's lease liabilities are included in lease liabilities and other payables and accruals.

##### (c) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases that are considered to be of low value.

Lease payments on short-term leases and leases of low-value assets are recognized as an expense on a straight-line basis over the lease term.

## NOTES TO FINANCIAL STATEMENTS

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### LEASES (continued)

##### Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, are accounted for as finance leases.

#### INVESTMENTS AND OTHER FINANCIAL ASSETS

##### Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortized cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### INVESTMENTS AND OTHER FINANCIAL ASSETS (continued)

##### Initial recognition and measurement (continued)

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognized on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

##### Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

##### Financial assets at amortized cost (debt instruments)

Financial assets at amortized cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognized in the statement of profit or loss when the asset is derecognized, modified or impaired.

##### Financial assets at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under HKAS 32 *Financial Instruments: Presentation* and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognized as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### INVESTMENTS AND OTHER FINANCIAL ASSETS (continued)

##### Subsequent measurement (continued)

##### Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognized in the statement of profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on equity investments classified as financial assets at fair value through profit or loss are also recognized as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognized in the statement of profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### DERECOGNITION OF FINANCIAL ASSETS

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of the Group’s continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### IMPAIRMENT OF FINANCIAL ASSETS

The Group recognizes an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

##### General approach

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### IMPAIRMENT OF FINANCIAL ASSETS (continued)

##### General approach (continued)

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

The Group considers a financial asset in default when contractual payments are 90 days past due, except for certain customers which are granted with a longer credit term. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Debt investments at fair value through other comprehensive income and financial assets at amortized cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables and contract assets which apply the simplified approach as detailed below.

- Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

##### Simplified approach

For trade receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade receivables and contract assets that contain a significant financing component and lease receivables, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### FINANCIAL LIABILITIES

##### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as loans and other borrowings, financial liabilities at fair value through profit or loss and payables.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, other payables, derivative financial instruments, interest-bearing bank and other borrowings and redeemable preferred shares in a subsidiary.

##### Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

##### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities designated upon initial recognition as at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in HKFRS 9 are satisfied. Gains or losses on liabilities at fair value through profit or loss are recognised in the statement of profit or loss, except for the gains or losses arising from the Group's own credit risk which are presented in other comprehensive income with no subsequent reclassification to the statement of profit or loss. The net fair value gain or loss recognised in the statement of profit or loss does not include any interest charged on these financial liabilities. The Group has designated its redeemable preferred shares in a subsidiary as financial liabilities at fair value through profit or loss.

##### Financial liabilities at amortized cost (loans and borrowings)

After initial recognition, interest-bearing bank borrowings are subsequently measured at amortized cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognized in the statement of profit or loss when the liabilities are derecognized as well as through the effective interest rate amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in finance costs in the statement of profit or loss.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### FINANCIAL LIABILITIES (continued)

##### Subsequent measurement (continued)

##### Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognized initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contracts at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets; and (ii) the amount initially recognized less, when appropriate, the cumulative amount of income recognized.

#### DERECOGNITION OF FINANCIAL LIABILITIES

A financial liability is derecognized when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognized in the statement of profit or loss.

#### OFFSETTING OF FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

#### TREASURY SHARES

Own equity instruments which are reacquired and held by the Group (treasury shares) are recognized directly in equity at cost. No gain or loss is recognized in the statement of profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

#### INVENTORIES

Inventories are stated at the lower of cost and net realizable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realizable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### CASH AND CASH EQUIVALENTS

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short-term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

#### PROVISIONS

A provision is recognized when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognized for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

The Group provides for warranties in relation to the sale of certain industrial products and the provision of construction services for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are recognized based on sales volume and past experience of the level of repairs and returns, discounted to their present values as appropriate.

#### INCOME TAX

Income tax comprises current and deferred tax. Income tax relating to items recognized outside profit or loss is recognized outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### INCOME TAX (continued)

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, and the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, deferred tax assets are only recognized to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at the end of each reporting period and are recognized to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realize the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### GOVERNMENT GRANTS

Government grants are recognized at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognized as income over the periods that the costs, for which it is intended to compensate, are expensed.

#### REVENUE RECOGNITION

##### Revenue from contracts with customers

Revenue from contracts with customers is recognized when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognized under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

##### (a) Sale of goods and related installation

Revenue from the sale of goods and related installation is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods and related installation.

##### (b) Operator telecommunication services

Revenue is measured at the transaction price which is the amount of consideration to which the Group entitled in exchange for transferring promised services to the customer. For offerings which included the provision of multiple performance obligations, such as telecommunications services (such as voice and data services), telecommunication related products (such as handsets), customer point rewards and/or other promotional goods/services, the Group allocates the transaction price received/receivable from customers to each performance obligation based on the relative stand-alone selling prices.

Revenue for each performance obligation is then recognized when the Group satisfies the performance obligation by transferring the promised services to a customer. Revenue is recognized when the customer obtains the control of the telecommunications services over the time of provision of the services. Revenue from the sale of telecommunication related products is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of the products.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### REVENUE RECOGNITION (continued)

##### Revenue from contracts with customers (continued)

##### (c) Technical support and maintenance services

Revenue from the technical support and maintenance services is recognized over the scheduled period on a straight-line basis because the customer simultaneously receives and consumes the benefits provided by the Group.

##### Revenue from other sources

Rental income is recognized on a time proportion basis over the lease terms. Variable lease payments that do not depend on an index or a rate are recognized as income in the accounting period in which they are incurred.

##### Other income

Interest income is recognized on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Dividend income is recognized when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

#### CONTRACT LIABILITIES

A contract liability is recognized when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognized as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

## NOTES TO FINANCIAL STATEMENTS

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### SHARE-BASED PAYMENTS

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees for grants is measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by an external valuer using a binomial model, further details of which are given in note 30 to the financial statements.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognized. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognized as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognized for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### SHARE-BASED PAYMENTS (continued)

The dilutive effect of outstanding equity-settled awards is reflected as additional share dilution in the computation of earnings per share.

The cost of cash-settled transactions is measured initially at fair value at the grant date using the Black-Scholes formula, taking into account the terms and conditions upon which the instruments were granted. The fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The cumulative expense recognised for cash-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of awards that will ultimately vest. The liability is measured at the end of each reporting period up to and including the settlement date, with changes in fair value recognised in the statement of profit or loss.

#### OTHER EMPLOYEE BENEFITS

##### Pension schemes

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These PRC subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

#### BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalized as part of the cost of those assets. The capitalization of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalized. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### DIVIDENDS

Final dividends are recognized as a liability when they are approved by the shareholders in a general meeting.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognized immediately as a liability when they are proposed and declared.

#### FOREIGN CURRENCIES

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognized in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognized in other comprehensive income or profit or loss is also recognized in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognizes the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain overseas subsidiaries and joint venture are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Hong Kong dollars at the weighted average exchange rates for the year.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### FOREIGN CURRENCIES (continued)

The resulting exchange differences are recognized in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognized in the statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

### 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

#### JUDGEMENTS

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognized in the financial statements:

##### Revenue recognition

###### Performance obligation at a point in time

For performance obligations of the Group such as the sale of goods and related installation are not distinct from each other, as: (a) the customer is unable to receive and consume the benefits provided by the Group's performance; (b) the Group's performance does not create or enhance an asset (e.g., work in progress) that the customer controls as the asset is created or enhanced; and (c) the Group does not have an enforceable right to payment for performance completed to date. Hence, such performance obligations are satisfied at a point in time. Specifically, revenue of those performance obligations is recognised upon acceptance by the customers after the respective performance obligations are satisfied.

##### Recognition of a deferred tax liability for withholding taxes

The PRC New Corporate Income Tax Law, which became effective on 1 January 2008, states that the distribution of dividends by a foreign-invested enterprise established in Mainland China to its foreign investors, from its earnings of 2008 or thereafter, shall be subject to withholding taxes at an applicable rate of 5% or 10%. The directors had assessed whether it is probable for the Group's PRC subsidiaries to distribute dividends out of their profits earned after 1 January 2008. For details, refer to note 15 to the financial statements.

## NOTES TO FINANCIAL STATEMENTS

### 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

#### JUDGEMENTS (continued)

##### Consolidation of entities in which the Group holds less than a majority of voting rights

The Group considers that it controls Xin Han Tong No.1, Xin Han Tong No.2, Xin Han Tong No.3, Xin Han Tong No.5, Xin Han Tong No.6, Xin Han Tong No.7, Xin Han Tong No.8, Xin Han Tong No.9, Xin Han Tong No.10, Xin Han Tong No.11 and Xin Han Tong No.12 Partnership even though it owns less than 50% of the voting rights. This is because the Group is the only general partner which can control the investment management or other activities of these partnerships. For details, please refer to note 30(c) to the financial statements.

#### ESTIMATION UNCERTAINTY

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

##### Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill at 31 December 2021 was HK\$242,773,000 (2020: HK\$253,077,000). Further details are given in note 14.

##### Provision for expected credit losses on trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on groupings of various customer segments that have similar loss patterns (i.e., by geography, customer type and rating).

The provision matrix is initially based on the Group's historical observed default rates and time value. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables is disclosed in note 21 to the financial statements.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (continued)

#### ESTIMATION UNCERTAINTY (continued)

##### Leases – Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in a lease, and therefore, it uses an incremental borrowing rate (“IBR”) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group “would have to pay”, which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when it needs to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary’s functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary’s stand-alone credit rating).

##### Deferred tax assets

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The carrying value of deferred tax assets relating to recognized tax losses at 31 December 2021 was HK\$195,727,000 (2020: HK\$174,379,000). The amount of unrecognized tax losses at 31 December 2021 was HK\$516,021,000 (2020: HK\$401,943,000). Further details are contained in note 15 to the financial statements.

##### Provision against obsolete and slow-moving inventories

The Group reviews the condition of its inventories at the end of each reporting period and makes provisions against obsolete and slow-moving inventory items which are identified as no longer suitable for sale or use based on sales forecasts. Such sales forecasts are prepared based on agreements or orders on hand and estimated sales in the foreseeable future based on historical experiences with its customers and current market conditions of telecommunications industry. Management estimates the net realizable value for those obsolete and slow-moving inventories based primarily on the latest invoice prices and current market conditions. The estimation is reassessed at the end of each reporting period. The provision against obsolete and slow-moving inventories requires the use of judgements and estimates. Where the actual outcome or expectation in future is different from the original estimate, such difference will impact on the carrying value of inventories and the write-down of inventories recognized in the periods in which such estimates have been changed. The carrying amount of inventories at 31 December 2021 was HK\$1,356,335,000 (2020: HK\$1,275,812,000). For the breakdown, please refer to note 20 to the financial statements. During the year ended 31 December 2021, a write-down of inventories of HK\$231,617,000 (2020: HK\$84,427,000) was recognized in the consolidated statement of profit or loss (note 6).

##### Fair value of unlisted equity investments

The unlisted equity investments have been valued based on a market-based valuation technique as detailed in note 37 to the financial statements. The valuation requires the Group to determine the comparable public companies (peers) and select the price multiple. In addition, the Group makes estimates about the discount for illiquidity and size differences. The fair value of the unlisted equity investments at 31 December 2021 was HK\$153,347,000 (2020: HK\$69,414,000). Further details are included in note 18 to the financial statements.

## ESTIMATION UNCERTAINTY (continued)

## Development costs

Development costs are capitalized in accordance with the accounting policy for research and development expenses in note 2.4 to the financial statements. Determining the amounts to be capitalized requires management to make assumptions regarding the expected future cash generation of the assets, discount rates to be applied and the expected period of benefits. At 31 December 2021, the best estimate of the carrying amount of capitalized development costs was HK\$295,465,000 (2020: HK\$360,156,000). For details, please refer to note 16 to the financial statements.

## 4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organized into business units based on their products and services and has two reportable operating segments as follows:

- (a) Wireless telecommunications network system equipment and services
- (b) Operator telecommunication services

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on loss before tax.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 11. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic loss per share amounts is based on the loss for the year attributable to ordinary equity holders of the parent, and the weighted average number of ordinary shares of 2,764,908,000 (2020: 2,636,139,000) in issue during the year.

The calculation of the diluted loss per share amounts is based on the loss for the year attributable to ordinary equity holders of the parent. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the year, as used in the basic loss per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise or conversion of all dilutive potential ordinary shares into ordinary shares.

No adjustment has been made to the basic loss per share amounts presented for the year ended 31 December 2021 in respect of a dilution as the impact of the share options had an anti-dilutive effect on the basic loss per share amounts presented.

The calculations of basic and diluted loss per share are based on:

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

## 13. LEASES

## THE GROUP AS A LESSEE

The Group has lease contracts for various items of prepaid land lease payment, buildings, and other equipment. Lump sum payments were made upfront to acquire the leased land from the owners with lease periods of 50 years, and no ongoing payments will be made under the terms of these land leases. Leases of buildings generally have lease terms between 1 and 10 years, while other equipment generally has lease terms between 1 and 10 years.

## 13. LEASES (continued)

## THE GROUP AS A LESSOR

The Group leases certain of its properties under operating lease arrangements. The terms of the leases generally also require the tenants to pay security deposits and provide for periodic rent adjustments according to the then prevailing market conditions. Rental income recognized by the Group during the year was HK\$14,004,000 (2020: HK\$9,671,000), details of which are included in note 5 to the financial statements.

As at 31 December 2021, the undiscounted lease payments receivable by the Group in future periods under non-cancellable operating leases with its tenants are as follows:

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 14. GOODWILL (continued)

#### IMPAIRMENT TESTING OF GOODWILL

Goodwill acquired through business combinations is allocated to the following cash-generating units (“CGUs”) for impairment testing:

- Wireless telecommunications equipment CGU; and
- Provision of operator telecommunication services and their value added services CGU.

The recoverable amount of goodwill is determined based on a value in use calculation. The value in use calculation uses cash flow projections based on financial budgets covering at least a 5-year period approved by management. The discount rate applied to the cash flow projections is approximately from 15% to 17% (2020: 15% to 17%), and cash flows beyond the 5-year period were extrapolated using a growth rate of 2.0% to 3.0% (2020: 2.0% to 3.0%), which was represented by expected long term CPI growth rate.

Management has determined the budgeted gross margins based on past performance and its expectation for market development. The discount rate reflects specific risks relating to the cash-generating unit.

At 31 December 2021, no deferred tax has been recognized for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in Mainland China. In the opinion of the directors, it is not probable that these subsidiaries will distribute such earnings that are subject to withholding tax in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognized totalled approximately HK\$1,966,476,000 at 31 December 2021 (2020: HK\$2,071,067,000).

Deposits and other receivables under current assets mainly represent rental deposits and deposits with suppliers. As at 31 December 2021, expected credit losses are estimated by applying a loss rate approach with reference to the historical loss record of the Group. The loss rate is adjusted to reflect the current conditions and forecasts of future economic conditions, as appropriate. The loss rate applied as at 31 December 2021 was 0.10% to 10.00% and 100% for stage 1 and stage 3 respectively (2020: 0.10% to 10.00% and 100% for stage 1 and stage 3).

|                   | <b>4,129,136</b> | 4,130,899        |

The Group's trading terms with its customers are mainly on credit. The credit period is generally 3 months, except for certain customers which are granted with a longer credit term. The balances also include retention money, which is for assurance that the product and services comply with agreed-upon specifications, of approximately 10% to 20% of the total contract sum of each project and are generally receivable after final certification of products by customers, which would be performed 6 to 12 months after sale. The credit terms for major customers are reviewed regularly by senior management. The Group seeks to maintain strict control over its outstanding receivables and has a credit control department to minimize the credit risk. Overdue balances are reviewed regularly by senior management. The Group does not hold any collateral or other credit enhancements over these balances. Trade receivables are non-interest-bearing.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

|                          | 2021<br>HK\$'000 | 2020<br>HK\$'000 |

## 21. TRADE RECEIVABLES (continued)

The movements in the loss allowance for impairment of trade receivables are as follows:

|                                     | 2021<br>HK\$'000 | 2020<br>HK\$'000 |
|-------------------------------------|------------------|------------------|
| At beginning of year                | 548,872          | 469,562          |

| At end of year                      | 723,496          | 548,872          |

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on groupings of various customer segments with similar loss patterns (i.e., geography, customer type and rating). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written off when there is information indicating that the counterparty is in severe financial difficulty or there is no realistic prospect of future recovery.

Set out below is the information about the credit risk exposure on the Group's trade receivables using a provision matrix:

| As at 31 December 2021            | Current   | Past due            |              |                 | Total     |

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

**23. CASH AND CASH EQUIVALENTS AND RESTRICTED BANK DEPOSITS** (continued)

The RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorized to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Time deposits are made for varying periods of between one day and three years depending on the cash requirements of the Group and earn interest at respective time deposit rates. The bank balances and time deposits are deposited with creditworthy banks with no recent history of default.

**24. TRADE AND BILLS PAYABLES**

An ageing analysis of the trade and bills payables as at the end of the reporting period, based on the invoice date, is as follows:

|                  | 2021<br>HK\$'000 | 2020<br>HK\$'000 |
|------------------|------------------|------------------|

| At 31 December                   | 75,290           | 74,313           |

The Group generally provides warranties of 1 to 2 years to its customers on certain of its products, under which faulty products are repaired or replaced. The amount of provision is estimated based on sales volumes and past experience of the level of repairs and returns. The estimation basis is reviewed on an ongoing basis and revised where appropriate. During the year, the provision for product warranties were not discounted as the effect of discounting was not material.

## 28. REDEEMABLE PREFERRED SHARES IN A SUBSIDIARY

### 28. REDEEMABLE PREFERRED SHARES IN A SUBSIDIARY (continued)

The key terms of the preferred shares in a subsidiary are summarised as follows: (continued)

#### (b) REDEMPTION RIGHTS

If Comba Network fails to consummate a qualified public offering prior to the date of 31 December 2024, at the option of the holder of the preferred shares in a subsidiary, the Group shall redeem all of the outstanding preferred shares in a subsidiary held by the requesting holder, at the price for preferred share issue price and a return at a pre-determined simple interest rate on all accrued but unpaid dividends, proportionally adjusted for share splits, share dividends, recapitalisations and the like. The redemption rights shall be terminated upon the closing of a qualified public offering.

The redeemable preferred shares in a subsidiary were designated as financial liabilities at fair value through profit or loss on initial recognition. At the end of the reporting period subsequent to initial recognition, all redeemable preferred shares in a subsidiary are measured at fair value, with changes in fair value arising on remeasurement recognised directly in profit or loss in the period in which they arise.

The movements of the preferred shares in a subsidiary are set out below:

|                              | 2021<br>HK\$'000 | 2020<br>HK\$'000 |
|------------------------------|------------------|------------------|
| At the beginning of the year | 111,908          | –                |
| Additions                    | 216,432          | 111,908          |
| Fair value losses            | 6,509            | –                |
| Exchange realignment         | 7,922            | –                |
| At 31 December               | 342,771          | 111,908          |

The Group applied the discounted cash flow method to determine the underlying equity value of the Comba Network and adopted the option-pricing method and equity allocation model to determine the fair value of the redeemable preferred shares in a subsidiary, which were revalued at the end of the reporting period by independent professionally qualified valuers. Key assumptions are set out below:

|                                    | 31 December<br>2021 | 31 December<br>2020 |
|------------------------------------|---------------------|---------------------|
| Discount rate                      | 17%                 | 16%                 |
| Risk-free interest rate            | 2.458%              | 2.886%              |
| Discount for lack of marketability | 20%                 | 20%                 |
| Volatility                         | 46.78%              | 43.94%              |

The discount rate was estimated by the weighted average cost of capital as of each appraisal date. The Group estimated the risk-free interest rate based on the yield of Chinese Treasury with a maturity life equal to period from the respective appraisal dates to expected liquidation date. Volatility was estimated at the dates of appraisal based on average of historical volatilities of comparable companies in the same industry for a period from the respective appraisal dates to expected liquidation date.

### 30. SHARE OPTION SCHEME, SHARE AWARD SCHEME AND SHARE INCENTIVE SCHEME

#### (a) SHARE OPTION SCHEME

The Company operates a share option scheme adopted on 3 June 2013 (the “2013 Scheme”) which, unless otherwise cancelled or amended in accordance with the terms therein, will remain in force for ten years from that date and will expire on 3 June 2023.

The purposes of the 2013 Scheme are to provide incentives and rewards to eligible persons who contribute to the success of the Group’s operations. Eligible persons of the 2013 Scheme include directors (including independent non-executive directors), employees, holders of any securities, business or joint venture partners, contractors, agents or representatives of, persons or entities that provide research, development or technological support or any advisory, consultancy, professional services for the business of the Group, investors, vendors, suppliers, developers or licensors of, or customers, licensees, wholesalers, retailers, traders or distributors of goods or services of members of the Group, the Company’s controlling shareholders or companies controlled by the Company’s controlling shareholders.

The maximum number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the 2013 Scheme, the Share Award Scheme (note 30(b)) and any other incentive or share option schemes of the Company shall not exceed 30% of the shares of the Company in issue at any time. The maximum number of shares already issued and to be issued upon exercise of share options granted to each eligible person under the 2013 Scheme and any other share option schemes of the Company (including cancelled, exercised and outstanding share options) in any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders’ approval in a general meeting.

Share options granted under the 2013 Scheme to a director, chief executive or substantial shareholder of the Company, or to any of their respective associates, are subject to approval in advance by the independent non-executive directors of the Company. In addition, any share options granted under the 2013 Scheme and any other share option schemes of the Company (including share options exercised, cancelled and outstanding) to a substantial shareholder of the Company or an independent non-executive director of the Company, or to any of their respective associates, in excess of 0.1% of the shares of the Company in issue at any time and with an aggregate value (based on the closing price of the Company’s shares at the date of grant of the share options) in excess of HK\$5 million, in any 12-month period up to and including the date of such grant, are subject to shareholders’ approval in advance in a general meeting.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 30. SHARE OPTION SCHEME, SHARE AWARD SCHEME AND SHARE INCENTIVE SCHEME (continued)

#### (a) SHARE OPTION SCHEME (continued)

The offer of a grant of share options under the 2013 Scheme may be accepted within 21 days from the date of offer, upon payment of a nominal consideration of HK\$10 in total by the grantee. The exercise period of the share options granted under the 2013 Scheme is determinable by the directors of the Company and commences after a certain vesting period and ends on a date which is not later than ten years from the date of offer of the share options.

The exercise price of the share options granted under the 2013 Scheme is determinable by the directors of the Company, but shall not be less than the highest of: (i) the nominal value of the Company's shares; (ii) the closing price of the Company's shares as stated in the daily quotations sheet issued by the Stock Exchange on the date of offer of the share options; and (iii) the average closing prices of the Company's shares as stated in the daily quotations sheets issued by the Stock Exchange for the five trading days immediately preceding the date of offer of the share options.

Share options granted under the 2013 Scheme do not confer rights on the holders to dividends or to vote at shareholders' meetings of the Company.

The following number of share options were outstanding under the 2013 Scheme during the year:

|                           | 2021  |                         | 2020  |                         |

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 30. SHARE OPTION SCHEME, SHARE AWARD SCHEME AND SHARE INCENTIVE SCHEME (continued)

#### (a) SHARE OPTION SCHEME (continued)

50,000,000 share options were granted on 13 April 2021 with an exercise price of HK\$2.03 under the 2013 Scheme. The closing price of the Company's shares immediately before the date on which the options were granted was HK\$2.00.

The fair value of the share options granted during the year was approximately HK\$33,178,000 (HK\$0.66 each), of which the Group recognized a share option expense of approximately HK\$12,006,000 during the year. Fair value of the share options granted to the following persons on the date of grant was listed as below:

|                              | Fair value<br>HK\$'000 |
|------------------------------|------------------------|
| Executive directors          |                        |
| Mr. Xu Huijun                | 2,680                  |
| Mr. Chang Fei Fu             | 1,341                  |
| Mr. Bu Binlong               | 1,341                  |
| Ms. Huo Xinru                | 1,341                  |
|                              | 6,703                  |
| Other employees in aggregate | 26,475                 |
|                              | 33,178                 |

The fair value of equity-settled share options granted during the current year was estimated as at the date of grant using a binomial model, taking into account the terms and conditions upon which the share options were granted. The following table lists the inputs to the model used:

|   |             |
|---|-------------|
| Dividend yield (%)                            | 0.94        |
| Expected volatility (%)                       | 43.27       |
| Risk-free interest rate (%)                   | 0.76        |
| Post vesting exit rate (%)                    | 15.34-21.13 |
| Expected life of the share options (years)    | 1.90        |
| Weighted average share price (HK\$ per share) | 2.03        |

The expected life of the share options is based on the historical data and is not necessarily indicative of the exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

No other feature of the share options granted was incorporated into the measurement of fair value.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 30. SHARE OPTION SCHEME, SHARE AWARD SCHEME AND SHARE INCENTIVE SCHEME (continued)

#### (a) SHARE OPTION SCHEME (continued)

At the end of the reporting period, the Company had 154,473,000 share options outstanding under the 2013 Scheme, of which 53,458,000 were vested and 101,015,000 were unvested. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 154,473,000 additional ordinary shares of the Company and additional share capital of HK\$15,447,300 and share premium of HK\$260,780,000 (before issue expenses).

At the date of approval of these financial statements, the Company had 153,273,500 share options outstanding under the 2013 Scheme, which represented approximately 5.51% of the Company's shares in issue as at that date.

According to the scheme limit of the 2013 Scheme as refreshed at the annual general meeting held on 28 May 2018, the Company may further grant 246,516,486 share options (being 10% of the total number of issued shares of the Company as at 28 May 2018). Since 5,000,000 share options, 80,000,000 share options and 50,000,000 share options were granted on 28 August 2018, 8 April 2019 and 13 April 2021 respectively, the total number of unissued share options under the scheme limit became 111,516,486, representing approximately 4.01% of the Company's shares in issue as at 31 December 2021.

#### (b) SHARE AWARD SCHEME

The Company adopted the Share Award Scheme on 25 March 2011 (the "Adoption Date"). The purposes and objectives of the Share Award Scheme are to recognize the contributions made by certain employees and persons to the Group (the "Selected Persons") and to provide them with incentives in order to retain them for the continual operation and development of the Group and to attract suitable personnel for further development of the Group.

Unless it is early terminated by the board of directors of the Company (the "Board") in accordance with the terms therein, the Share Award Scheme shall be valid and effective for a term of ten years commencing on the Adoption Date.

The Board has resolved to renew the term of the Share Award Scheme for a term of ten years as from 25 March 2021 to 25 March 2031. Please refer to the announcement of the Company dated 25 March 2021 for details.

Pursuant to the Share Award Scheme, (i) awarded shares (the "Awarded Shares") will be acquired by the trustee and/or the administrator of the Share Award Scheme (the "Trustee/Administrator") at the cost of the Company at the prevailing market price and be held in trust for the Selected Persons until the end of each vesting period; or (ii) new Awarded Shares may be allotted and issued to the Trustee/Administrator under general mandates granted or to be granted by the shareholders at general meetings from time to time and be held in trust for the Selected Persons until the end of each vesting period.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 30. SHARE OPTION SCHEME, SHARE AWARD SCHEME AND SHARE INCENTIVE SCHEME (continued)

#### (b) SHARE AWARD SCHEME (continued)

The Board shall not make any further award of the Awarded Shares which will result in the nominal value of the shares awarded by the Board under the Share Award Scheme exceeding 5% of the issued share capital of the Company as at the Adoption Date (or the refreshed or amended limit as approved by the shareholders). The maximum number of shares which may be awarded to a Selected Person under the Share Award Scheme shall not exceed 1% of the issued share capital of the Company as at the Adoption Date (or the refreshed or amended limit as approved by the shareholders). The aforesaid limit may be refreshed or amended by approval of the shareholders in a general meeting. Nevertheless, the total number of the Awarded Shares which may be issued under the Share Award Scheme and the exercise of all options to be granted under other incentive and option schemes of the Company (including the 2013 Scheme) as so refreshed shall not exceed 10% of the shares in issue as at the date of approval of the refreshed limit. Awarded Shares or share options previously granted under the Share Award Scheme or the 2013 Scheme (including those vested, outstanding, cancelled and lapsed) will not be counted for the purpose of calculating the limit as refreshed. The Company will not issue any Awarded Shares under the Share Award Scheme which would result in the total number of the Awarded Shares together with shares which may be issued upon exercise of all outstanding share options granted and yet to be exercised under the 2013 Scheme or any other incentive or share option schemes of the Company representing in aggregate over 30% of the shares in issue as at the date of such grant.

On 12 April 2011, the Board resolved to award 26,000,000 Awarded Shares to 365 Selected Persons under the Share Award Scheme by way of issue and allotment of new Awarded Shares pursuant to the general mandate granted by the shareholders of the Company at the annual general meeting of the Company held on 24 May 2010. All such 26,000,000 Awarded Shares were vested/lapsed.

Movements in the number of treasury shares held for the Share Award Scheme for the years ended 31 December 2020 and 2021 are as follows:

|  | Treasury<br>shares held<br>for the Share<br>Award Scheme |
|--|--|
| At 1 January 2020, 31 December 2020, 1 January 2021 and 31 December 2021 | 16,637,136   |

No Awarded Shares held for Selected Persons were outstanding as at 31 December 2021. No Awarded Shares were granted to any Selected Persons during the year ended 31 December 2021.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

**37. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS**

Management has assessed that the fair values of cash and cash equivalents, the current portion of restricted bank deposits, trade receivables, notes receivable, trade and bills payables, financial assets included in prepayments, other receivables and other assets, financial liabilities included in other payables, the current portion of interest-bearing bank borrowings and accruals approximate to their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of the non-current portion of restricted bank deposits and interest-bearing bank borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The changes in fair values as a result of the Group's own non-performance risk for interest-bearing bank borrowings as at 31 December 2021 were assessed to be insignificant.

As at 31 December 2020 and 2021, the carrying amount of the Group's financial assets and financial liabilities approximate to their fair values.

Set out below is a summary of significant unobservable inputs to the valuation of financial instruments together with a quantitative sensitivity analysis as at 31 December 2021 and 2020:

|                             | Valuation technique | Significant unobservable inputs    | Range                         | Sensitivity of fair value to the input  |

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

### 38. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise interest-bearing bank borrowings, cash, redeemable preferred shares in a subsidiary and short-term deposits. The main purpose of these financial instruments is to provide finance for the Group's operations. The Group has various other financial assets and liabilities such as trade receivables and trade payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The Board reviews and agrees policies for managing each of these risks and they are summarized below:

#### INTEREST RATE RISK

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligation with floating rates.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in interest rate, with all other variables held constant, of the Group's profit before tax and the Group's equity.

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

## 38. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

## FOREIGN CURRENCY RISK

The Group has transactional currency exposures. Such exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies. Approximately 13.1% (2020:11.2%) of the Group's sales were denominated in currencies other than the functional currencies of the operating units making the sales, whilst approximately 93.1% (2020:97.6%) of costs were denominated in the units' functional currencies.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the United States dollar ("US\$") and the UAE Dirham ("AED") exchange rate, with all other variables held constant, of the Group's profit before tax (due to changes in the fair values of monetary assets and liabilities) and the Group's equity.

#### CREDIT RISK

The Group trades only with recognized and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

#### Maximum exposure and year-end staging

The table below shows the credit quality and the maximum exposure to credit risk based on the Group's credit policy, which is mainly based on past due information unless other information is available without undue cost or effort, and year-end staging classification as at 31 December 2021. For listed debt investments, the Group also monitors them by using external credit ratings. The amounts presented are gross carrying amounts for financial assets and the exposure to credit risk for the financial guarantee contracts.

\* For trade receivables to which the Group applies the simplified approach for impairment, information based on the provision matrix is disclosed in note 21 to the financial statements.

The credit risk of the Group's other financial assets, which comprise cash at banks and other receivables, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

Since the Group trades only with recognized and creditworthy third parties, there is no requirement for collateral. Concentrations of credit risk are managed by counterparty, by geographical region and by industry sector. At the end of the reporting period, the Group has certain concentrations of credit risk as 28% (2020: 25%) and 70% (2020: 66%) of the Group's trade receivables were due from the Group's largest customer and the 5 largest customers, respectively.

Further quantitative data in respect of the Group's exposure to credit risk arising from trade receivables is disclosed in note 21 to the financial statements.

### 38. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

#### LIQUIDITY RISK

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets (e.g., trade receivables) and projected cash flows from operations.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of interest-bearing bank borrowings and lease liabilities. In addition, banking facilities have been put in place for contingency purposes. The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments, is as follows:

## NOTES TO FINANCIAL STATEMENTS

31 December 2021

**38. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES** (continued)**CAPITAL MANAGEMENT**

The primary objective of the Group's capital management is to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximize shareholders' value.

The Group manages its capital structure and makes adjustments to it in the light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2020 and 2021.

Capital is the total equity of the Group. The Group monitors capital using a gearing ratio, which is interest-bearing bank borrowings divided by the total assets. The gearing ratios as at the end of the reporting periods were as follows:

\* The Company's contributed surplus represents the excess of the fair value of the shares of the subsidiaries acquired pursuant to the Group reorganization before the listing of the Company on the main board of the Stock Exchange, over the nominal value of the Company's shares issued in exchange therefor. Under the Companies Law of the Cayman Islands, a company may make distributions to its members out of the contributed surplus under certain circumstances.

\*\* The share-based compensation reserve comprises the fair value of share options granted which are yet to be exercised, as further explained in the accounting policy for share-based payments in note 2.4 to the financial statements. The amount will either be transferred to the share premium account when the related options are exercised, or be transferred to retained profits should the related options expire or be forfeited.

## 41. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorized for issue by the Board on 24 March 2022.
