PROFIT WARNING

This announcement is made by the Company pursuant to Rule 13.09 of the Listing Rules and the Inside Information Provision under Part XIVA of the SFO.

The Board wishes to inform shareholders of the Company and potential investors that based on the preliminary review of the unaudited consolidated management accounts of the Group for the Current Period, the Group is expected to record a significant drop in the consolidated net profit for the Current Period as compared with the consolidated net profit for the Prior Period.

Shareholders of the Company and potential investors are advised to exercise caution when dealing in the securities of the Company.

This announcement is made by Comba Telecom Systems Holdings Limited (the “**Company**” together with its subsidiaries, collectively, the “**Group**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) and the Inside Information Provision (as defined under the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571, Laws of Hong Kong) (the “**SFO**”).

The board of directors of the Company (the “**Board**”) wishes to inform the shareholders of the Company and potential investors that based on the preliminary review of the unaudited consolidated management accounts of the Group for the six months ended 30 June 2018 (the “**Current Period**”), the Group is expected to record a significant drop in the consolidated net profit for the Current Period as compared with the consolidated net profit for the six months ended 30 June 2017 (the “**Prior Period**”).

The drop in the Group's consolidated net profit for the Current Period was primarily attributable to the following factors:

1. The Group increased the relevant investment in the research and development in order to well prepare for the launch of the 5G network, which led to an increase in research and development costs; and
2. The turnover of the Group fell, due to a decrease in related products' demand as leading operators in the mainland China had reduced their capital expenditures and delayed some projects during the Current Period.

Looking forward, the Board will continue to review the Group's operations and strategies from time to time to meet the challenges ahead and remains optimistic about the growth opportunities in telecommunication industry in the mainland China and the global markets (particularly the business development prospects in the launch of 5G network).

The information contained in this announcement is based on the preliminary assessment by the Company's management on the unaudited consolidated management accounts of the Group only. Such accounts have not been reviewed by the audit committee of the Company and may be subject to adjustments. Shareholders of the Company and potential investors are advised to read the interim results announcement of the Company for the Current Period carefully, which is expected to be published in late August 2018.
